PROFESSIONAL SUMMARY

Results-driven Full Stack Developer focused on building production-ready web applications with modern JavaScript technologies. Hands-on experience developing real-world CRUD systems, admin dashboards, authentication flows, scalable APIs, and cloud-deployed products. Strong foundation in frontend engineering, backend architecture, databases, and debugging production environments. Proven ability to ship complete products independently.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Next.js API Routes

Database: PostgreSQL, MongoDB, Prisma ORM

Core Concepts: REST APIs, Authentication, CRUD Systems, State Management, Responsive Design, MVC

Tools & Platforms: Git, GitHub, Vercel, Postman, Neon Database

PROJECTS

Bhudevi Estate CRM Platform | Full Stack SaaS Application

🔗 Live: <https://bhudevi-estate.vercel.app/>

🔗 GitHub: <https://github.com/Satvik-Vadigi/Bhudevi-Estate-CRM-Platform>

- Built and deployed a production-ready real estate CRM platform for managing listings and customer leads
 - Developed secure admin authentication system for protected internal operations
 - Implemented property management workflows with add, edit, delete, and update functionality
 - Built lead pipeline system with statuses: New, Contacted, Closed
 - Integrated Prisma ORM with PostgreSQL (Neon) for scalable database operations
 - Designed responsive modern UI using Next.js, TypeScript, and Tailwind CSS
 - Managed cloud deployment, environment variables, database migration, and production debugging
-

Full Stack Task Manager Application | MERN Stack

🔗 Live: <https://production-todo-mern-frontend-satvik-vadigis-projects.vercel.app/>

- Developed full-stack task management application using React, Node.js, Express, and MongoDB
 - Built REST APIs for task creation, updates, deletion, and structured data flow
 - Implemented scalable backend logic and maintainable architecture
 - Delivered responsive cross-device user interface
-

Personal Portfolio Website | React

🔗 Live: <https://my-personal-portfolio-irid-xi.vercel.app/>

- Designed and deployed personal developer portfolio showcasing projects and skills
 - Optimized performance and fast load times using Vercel deployment workflows
 - Built professional UI for recruiter and client visibility
-

EXPERIENCE

Web Development Intern | InAmigos Foundation

June 2026

- Developed an NGO awareness webpage using HTML and CSS, presenting the organization's mission, ongoing initiatives, social impact, and volunteer opportunities.
- Analyzed the foundation's website and documented UI/UX, content, and usability improvements with annotated recommendations.
- Built and deployed an AI-generated NGO website using AI-powered website development tools, exploring rapid web design and content generation.
- Designed a Figma-based feature showcase proposing key NGO website functionalities, including donation, volunteer registration, impact dashboard, testimonials, and campaigns.
- Strengthened practical skills in web development, AI-assisted development, UI/UX analysis, documentation, and digital problem-solving through project-based assignments.

Web Development Trainee | VaultOfCodes

June 2025 – July 2025

- Completed hands-on full stack development training across frontend and backend systems
- Worked on real-world implementation of APIs, deployment workflows, and debugging
- Strengthened software engineering fundamentals through project execution

ACHIEVEMENTS

- 🏆 1st Prize – ATOS Hackathon
- 🏆 1st Prize – PRAGYAN 2K26 Hackathon
- 🥈 2nd Place – Technical Quiz (PRAGYAN 2K26)
- 🥈 2nd Place – Elocution Competition

EDUCATION

B.Tech in Computer Science and Engineering

Avanthi's St. Theresa Institute of Engineering & Technology

Expected Graduation: 2027

CERTIFICATIONS

- Advanced Python Programming – Mimo
- Advanced HTML & CSS – Mimo
- Responsive Web Development – FreeCodeCamp
- Web Development Training – VaultOfCodes
- Web Developer Internship Completion Certificate – InAmigos Foundation (2026)
- Data Analytics Job Simulation – Deloitte (Forage)
